A Toast To Planet Earth

AI Tsuno Vocal, and other instruments

Line 6 Stratocaster
Dobro
Fender Jazz Bass
HALion - Bell Choir Piano
EZDrummer 3

Technical Notes

The extra instruments were recorded, mixed and mastered on PCs running Steinberg's *Cubase Pro 12 and 15* with *Izotope* plugins. The final edits were performed in Steinberg's *Wavelab 11* and final loudness adjustments made using *Wavelab 13 GO*.

EZDrummer 3 tracks were added and edited in Cubase following tempo maps created by Cubase.

HALion Sonic is the synthesizer package included with Cubase that I used to add “flavor” to many of the mixes.

The Jordan 6 string fretless bass is a one of a kind custom built instrument I bought from John Jordan in the mid 1990s. It's a solid rosewood behemoth with ebony fingerboard, custom wound Bartolini passive pickups among other goodies included on it.

The Banjo is a nice little Gold Tone and the Dobro is a nice new “Dobro” tuned to a minor chord.

View “The Beast”, Jordan Bass here (click 4th from left):

Ai Tsuno is David's “AI” tool for producing rapid releases from his prolific production of new songs. No way could I keep up. :-)
